ARES NET

THE BROWN COUNTY ARES
(AMATEUR RADIO EMERGENCY SERVICES)

NET WILL BE HELD EVERY MONDAY EVENING @

1900 HR. (7 PM) ON THE 147.36 (NO PL) THE PURPOSE OF THE NET IS TO ASSEMBLE - INFORM - & - TRAIN LOCAL AMATEUR OPERATORS IN THE SKILL NEED TO COMMUNICATE EFFECTIVELY SHOULD OUR SERVICES BE NEEDED IN AN EMERGENCY SITUATION.

ALL AMATEURS ARE WELCOME AND ENCOURAGED TO PARTICIPATE !

XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX

YOUR FIRST TRANSMISSION

BEFORE MAKING YOUR FIRST TRANSMISSION IN THE WORLD OF FM AND REPEATER COMMUNICATIONS, HOWEVER, YOU SHOULD BE AWARE OF SOME BASIC OPERATING TECHNIQUES. THESE VARY SLIGHTLY WITH LOCAL CUSTOM, BUT HERE ARE SOME GENERAL SUGGESTED PROCEDURES.

IF THE REPEATER IS QUIET, PRESS THE SWITCH ON YOUR MIKE AND TRANSMIT YOUR CALL SIGN AS, " N9XYZ LISTENING, " " N9XYZ MONITORING, " OR JUST " N9XYZ." AFTER YOU STOP TRANSMITTING, THE REPEATER SENDS AN UNMODULATED CARRIER FOR A COUPLE OF SECONDS JUST TO LET KNOW IT'S WORKING. IF ANYONE IS INTERESTED IN TALKING TO YOU, THEY'LL CALL AFTER YOUR INITIAL TRANSMISSION. SOME REPEATERS HAVE SPECIFIC RULES FOR MAKING YOURSELF HEARD, BUT USUALLY YOUR CALL SIGN IS ALL YOU NEED. DON'T CALL " CQ " TO INITIATE A CONVERSATION ON THE REPEATER.

IF YOU WANT TO JOIN A CONVERSATION IN PROGRESS, TRANSMIT YOUR CALL SIGN BETWEEN TRANSMISSIONS. THE STATION THAT TRANSMITS NEXT SHOULD ACKNOWLEDGE YOU. DON'T USE THE WORD " BREAK " TO JOIN A CONVERSATION (UNLESS IT'S THE OPERATING PRACTICE IN YOUR AREA). " BREAK " USUALLY SUGGESTS AN EMERGENCY AND " **BREAK, BREAK** " OR " **BREAK, BREAK, BREAK** " INDICATES A SERIOUS EMERGENCY. IN THESE CASES, ALL STATIONS SHOULD STAND BY FOR THE STATION WITH EMERGENCY TRAFFIC.

IF YOU WANT TO CALL A STATION AND THE REPEATER IS INACTIVE, SIMPLY CALL THE OTHER STATION. (FOR EXAMPLE, " KB3WCR, THIS IS KBOVCT. ") IF THE REPEATER IS ACTIVE, BUT THE CONVERSATION IN PROGRESS SOUNDS AS THOUGH IT'S ABOUT TO END, BE PATIENT AND WAIT UNTIL IT'S OVER BEFORE CALLING ANOTHER STATION. IF THE CONVERSATION SOUNDS LIKE IT'S GOING TO CONTINUE FOR A WHILE, TRANSMIT YOUR CALL SIGN BETWEEN TRANSMISSIONS. AFTER ONE OF THE OTHER HAMS ACKNOWLEDGE YOU, POLITELY ASK TO MAKE A QUICK CALL. USUALLY, THE OTHER STATIONS WILL YIELD TO YOU. MAKE YOUR CALL SHORT. IF YOUR FRIEND RESPONDS TO YOUR CALL, ASK HIM TO MOVE TO A SIMPLEX FREQUENCY OR ANOTHER REPEATER, OR TO STAND BY UNTIL THE PRESENT CONVERSATION IS OVER. THANK THE OTHER USERS FOR LETTING YOU INTERRUPT THEM TO PLACE YOUR CALL.

REPRINTED WITH PERMISSION FROM WELCOME TO AMATEUR RADIO / COPYRIGHT ARRL.

MOCK AIRPLANE CRASH DISASTER RECAP

On Tuesday, September 20, Brown County ARES participated in a county wide airplane crash disaster drill. The drill was staged, so we were able to plan in advance. The previous Thursday, the ARES participants had a meeting to solidify their roles. Tuesday, the call came at about 10:35 a.m. The net began immediately on 147.120. Our operators were already at their pre-arranged stations, but they rechecked in after the reasonable time it would have taken to reach their station.

The "Crash" scenario included 47 passengers, 6 "deaths", HIV positive cargo, and a special surprise--a bomb in a briefcase! The bomb was found to be a hoax. We used VHF and UHF simplex at the airport, and the hospital stations found VHF simplex worked very well for their applications.

Seventeen ARES members took part in the drill, which lasted almost two hours. After the drill, most met at Shakeys for lunch and animated discussion about what had occurred. I attended a critique at the airport after the drill. My observations from the critique were that everything went very very well, and the entire group was applauded. The only glitches that seemed to have occurred that could be pointed out immediately, is that several of the agencies had communications problems. (!!!!!) the magnitude of these problems will be forthcoming in the written critique, which we will be able to get a copy of. There will also be a videotape available to us very soon. Hopefully, we will be able to work with these agencies and find out how we can help them alleviate some of those problems in the future.

Our best kudos came from the hospitals. The airport amateurs found out right away that our niche was going to be with ambulance-to-hospital communications, so we ran with the opportunity. At the airport critique, we were highly praised by Bellin Hospital, the only hospital that showed up for the critique.

Very few things went wrong with our day, and they were minor in nature. We joined up again on Wednesday night for our own critique. The whole group was high on how everything went, and several observations and good ideas were fielded.

A lot went on, too much to report in this newsletter, so I will instead fill everyone in at the next club meeting.

Responses to all correspondence and ticket requests received on or after October 3 will be held at the door!

We learned many things, got some great practice, and made some mistakes, and despite the fact that there was a "disaster" going on, everyone enjoyed being able to participate. It was an excellent experience for ARES in Brown County. I encourage all amateur operators to involve themselves in the future of ARES. We proved we have a necessary role in this area, and we proved we are good at it! Please join, and feel how it feels to help out in an emergency with your amateur talent. We need more operators!

I bestow my heartfelt thanks to an awesome crew. They acted above and beyond the call of duty. I also want to thank Scott KB9AMM, Joe N9UPU, John KE9AS and Andy KB9ALN for their hard work and valuable input to get this off the ground. (No pun intended!) Thank you all!!!
